

## Fiberglass pulling rods

Fiberglass pulling rods for passing cables through hollow walls, partitions, false ceilings, gutters and crawl spaces.

They are rigid and allow installation in the most difficult to access spaces and over long lengths by pushing or pulling the cable.

Available in 2 versions :

- WALLY STICK diameter 4 mm (**Code WSTICK04**)
- WALLY STICK diameter 6 mm (**Code WSTICK06**)

Each WALLY STICK includes:

10 fiberglass rods of 1 meter each with M5 male and female ends

1 guide head

1 mixed flexible guide head

1 magnetic guide head

1 guide head with ring

1 guide head with hook

1 "lasso" cable hook
