OUR COMPANY

Thanks to a 40-year-experience in the world of special machinery, ERI develops your process with a unique know-how.

ERI is currently involved in all sectors of activity (energy, cosmetics, plastics processing, automotive, nuclear, pharma and so on), ERI will find the most suitable solution in order to create tailor-made, reliable and innovative machines.

ERI GROUP

In 2014, in order to enlarge its know-how regarding ultrasonic, ERI bought the French company EuroSonic. Added to ERI's technical skills, ultrasonic technology allows us to improve your equipment.

Since 1986, EuroSonic by ERI is specialized in assembly plastics. Ultrasonic technologies find an application in various sectors of activity and many processes as welding, cutting, pasting, cleaning and so on.

OUR VALUES

EXPECTING MORE OF OURSELVES

ERI's company, thanks to a 40-year experience in the domain of special machinery, dedicates 5% of its turnover to its RD department. In this way, ERI is continuously evolving.

STAND BY OUR CUSTOMERS FROM A TO Z

ERI guarantees a unique interlocutor from the beginning to the end of the conception of your machine. Your teams will be trained to understand the equipment's operation. A customer service is available, in France and worldwide. Your machine will be treated by the team in charge of its creation.

A CERTIFIED PRODUCTION

All ERI machines are CE certified. This standard corresponds to European Conformity. So ERI is manufacturing made in France machines meeting the needs of European requirements regarding quality standards.
