

COMPANY PROFILE

LOVATO Electric headquarter - Bergamo (ITALY)

ENERGY AND AUTOMATION

MARKET LEADER SINCE 1922

Established in Bergamo in 1922, **LOVATO Electric** is a private company run by the same family for 4 generations. For over 100 years, **LOVATO Electric** has been designing and manufacturing low voltage electrical components for industrial applications. We now offer more than 21,000 products conforming with the most stringent international certifications.

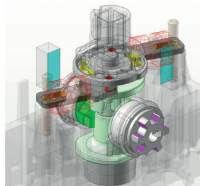

ITALIAN DESIGN

Italian design has always been our hallmark: our designers, researchers and engineering experts work in our Bergamo offices.

RESEARCH AND DEVELOPMENT

At our Bergamo offices, using the most modern software and technology available, our team of expert designers and researchers develop innovative and reliable products.

CUTTING EDGE TECHNOLOGY

An **innovative product** is created with technologically advanced processes: the efficiency of our processes is assured by our continuous investments in **digitalisation, robotics and automation**, which enable us to guarantee the highest quality of our large scale production.

TOTAL QUALITY

LOVATO Electric is equipped with modern measurement systems (including multi-sensor, coordinate-based and tomographic systems) conforming with the most varied and stringent quality requirements; it employs product validation (PPAP), risk analysis (FMEA) and problem solving (8D) methods to guarantee reliability and improve our processes and products.

Energy management **UNI CEI EN ISO 50001:2018**
 Environmental Management **UNI EN ISO 14001:2015**
 Occupational health and safety **UNI ISO 45001:2018**
 Quality Management **ISO 9001:2015**

Our R&D laboratory has a total area of 2,100 m².
 It is conforming with the international **EN/ISO/IEC 17025** standard and is accredited with the major international bodies, including **ACAIE** and **IMQ**, for product certification testing.
