IGE+XAO
GROUP

Shaping the Future
of the Electrical PLM,
CAD and Simulation

N
PE

"If the presence of electricity

can be made visible

in any part of the circuit,

We

Samuel

Morse

I see no reason why intelligence

may not be transmitted

instantaneously by electricity." (1832)

The IGE+XAO Group

Historically, the Group began by developing, selling and maintaining CAD (Computer Aided Design) software dedicated to the electrical industry. Electrical CAD software applications are used to design and maintain the electrical side of manufacturing processes and end products. Today, CAD is the main business of the Group and represents 70% of its revenue.

From the late 90's, the IGE+XAO Group has started the development of a software suite covering the overall requirements of the electrical harnesses design market. This new market has led the Group to start building, as early as 2005, a complete and dedicated PLM (Product Lifecycle Management) software range. These solutions have attracted numerous global players in aerospace and transportation such as Airbus, Embraer or Alstom.

Since mid-2014, with the purchase of Prosyst, IGE+XAO offers a complete software range for electrical functional simulation.

	31 locations in 20 countries		More than 93.000 licences sold
	33 years of experience		370 employees
	Listed on NYSE Euronext since March 1997

**A strong
international
presence**

We ❤️
electrical
CAD, PLM &
Simulation

An important customer base

Our 43,000 customers worldwide belong to a wide range of industries including:

- ▶ Automotive
- ▶ Transportation
- ▶ Power generation
- ▶ Electrical and electronic equipment
- ▶ Food, chemical and steel industries
- ▶ Building and public works
- ▶ Engineering
- ▶ Machine building
- ▶ Automation
- ▶ etc.

Number of licences sold

A strong presence in 8 industries

8 strategic markets

In each identified market, IGE+XAO covers the requirements with a complete range of modular products.

Aerospace

Automotive

Railway

Shipbuilding

Equipment & Machinery

Automation & Plant

Power generation & Energy

Construction

6 business domains

System design

Data management

Electrical design

(the core business of IGE+XAO)

Communication

Electrical manufacturing

Simulation and diagnostic

Solutions for all company sizes

- Key Accounts
- Small and Medium Businesses
- Very Small Businesses

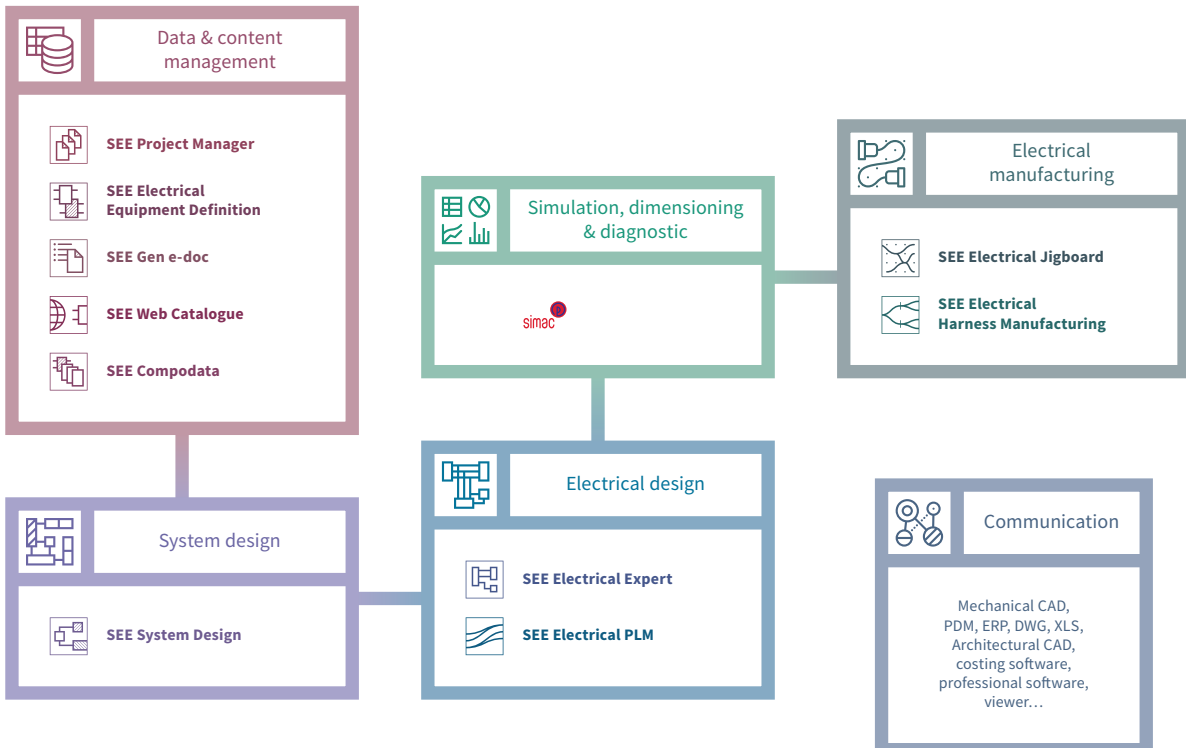

Aerospace

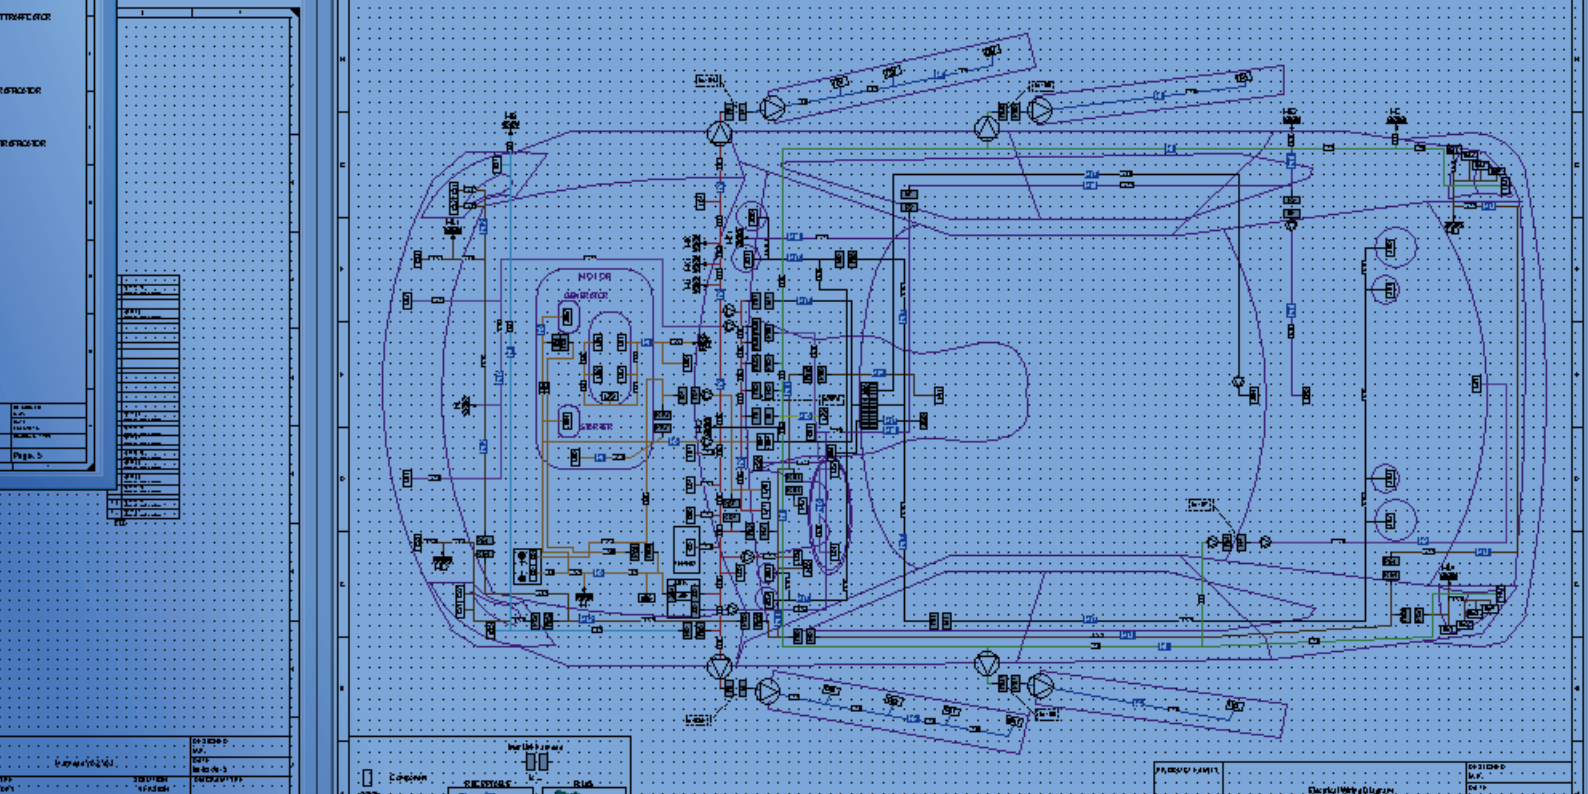

Market requirements

- More electrical aircraft
- Increasing numbers of components
- Numerous configurations to support
- More and more complex cabling
- Heterogeneous software tools
- Production time reduction

IGE+XAO answers

- **Powerful PLM (Product Lifecycle Management) suite**
- **Complete solution from design to manufacturing**
- **High level of integration**
- **Scalable solutions (from stand alone to PLM)**
- **Configuration management**

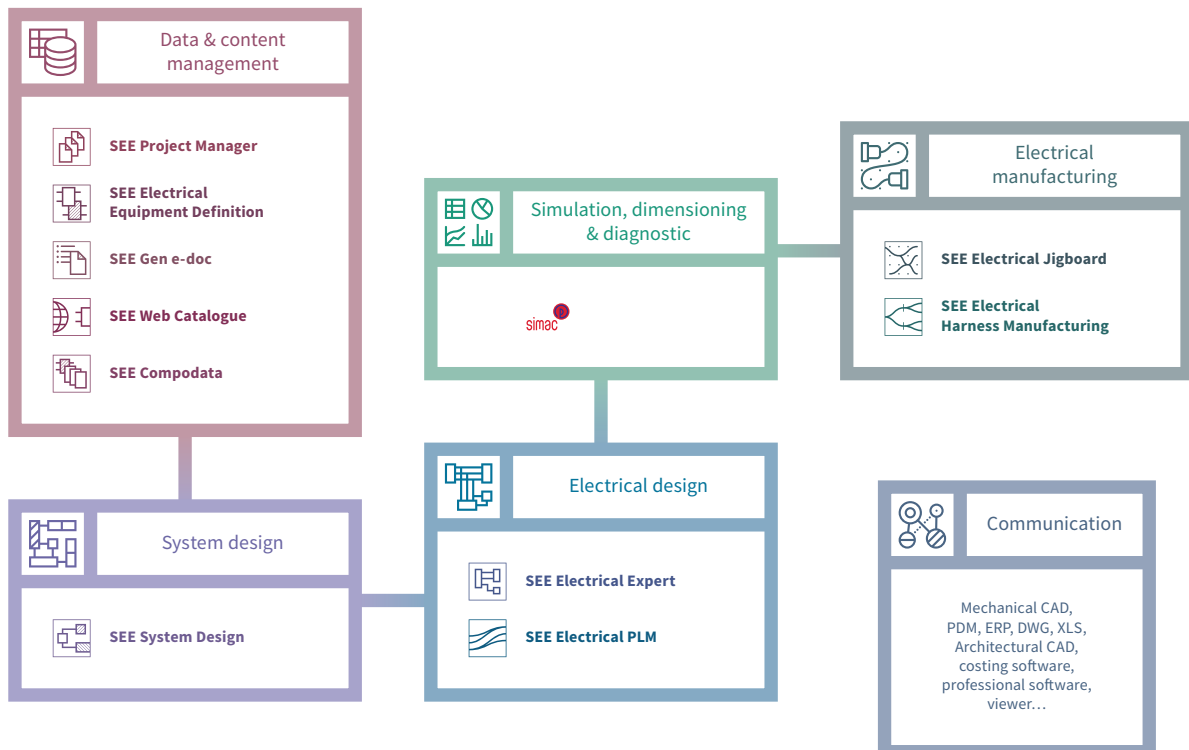

Automotive

Market requirements

- Hybrid vehicle technologies
- Shorter development time
- Options management
- Increasingly complex electronic content

IGE+XAO answers

- **Powerful PLM (Product Lifecycle Management) suite**
- **Automotive specific functions**
- **High level of integration**
- **Configuration management (options and variants)**

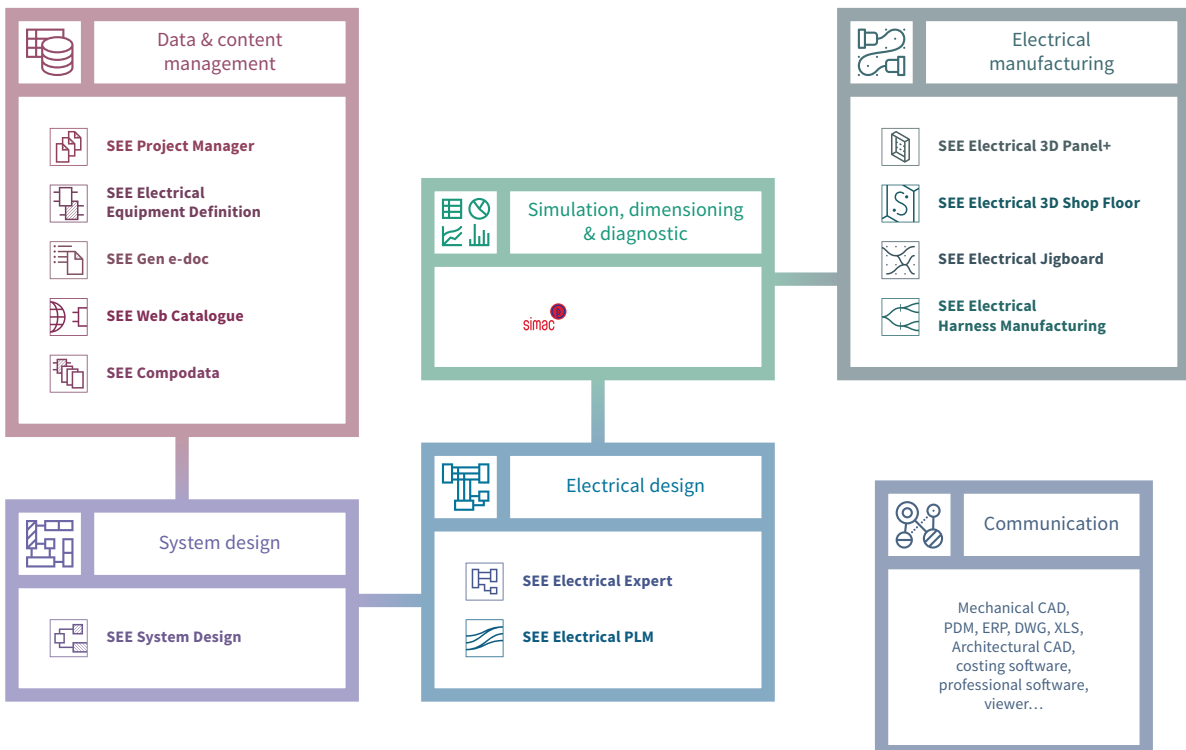

Railway

Market requirements

- "Intelligent train"
- Equipment reliability
- Safety
- Eco efficiency
- Additional comfort and services

IGE+XAO answers

- **Powerful PLM (Product Lifecycle Management) suite**
- **Railway specific functions**
- **High level of integration**
- **Traceability**
- **Configuration management**

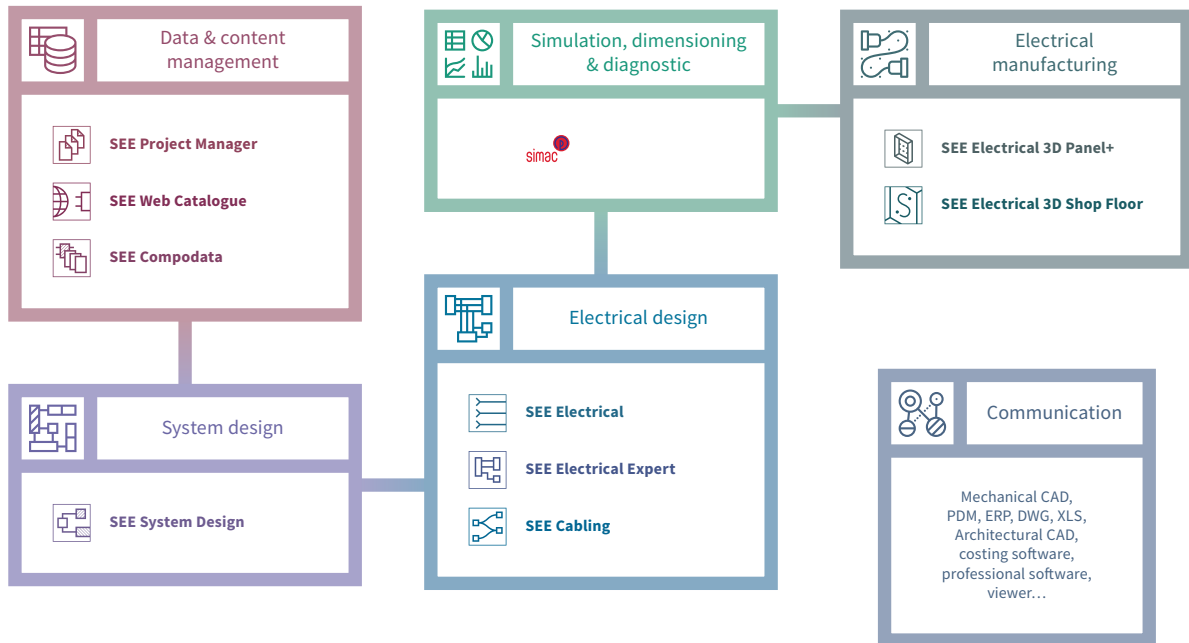

Shipbuilding

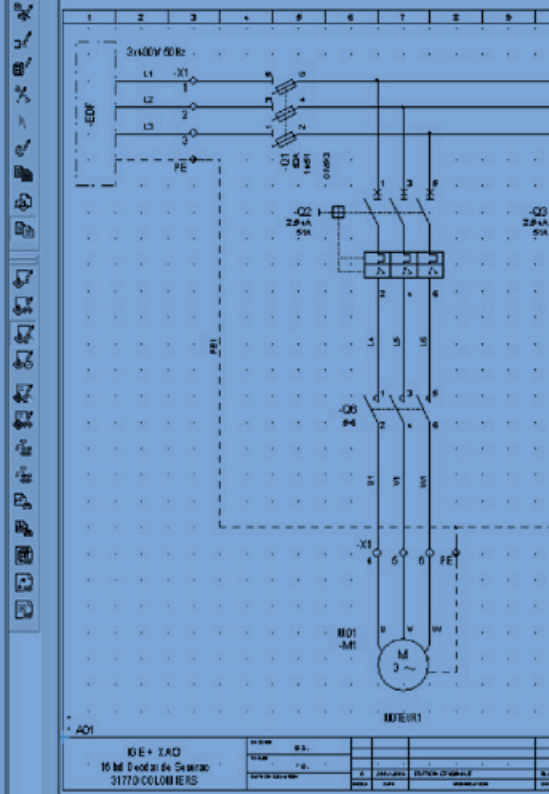

Market requirements

- "Smart" ship
- Increasing number of equipment
- Operational condition guarantee
- Ship lifelong evolutions
- Cost optimization

IGE+XAO answers

- Complete Visio-based offer that goes from functional design to schematics and cabling generation
- Communication capabilities (PLM and CAD integration)
- Collaborative design
- Multi function (hydraulics, pneumatics, electrical...)
- Configuration management (options and variants, versioning/maturity)

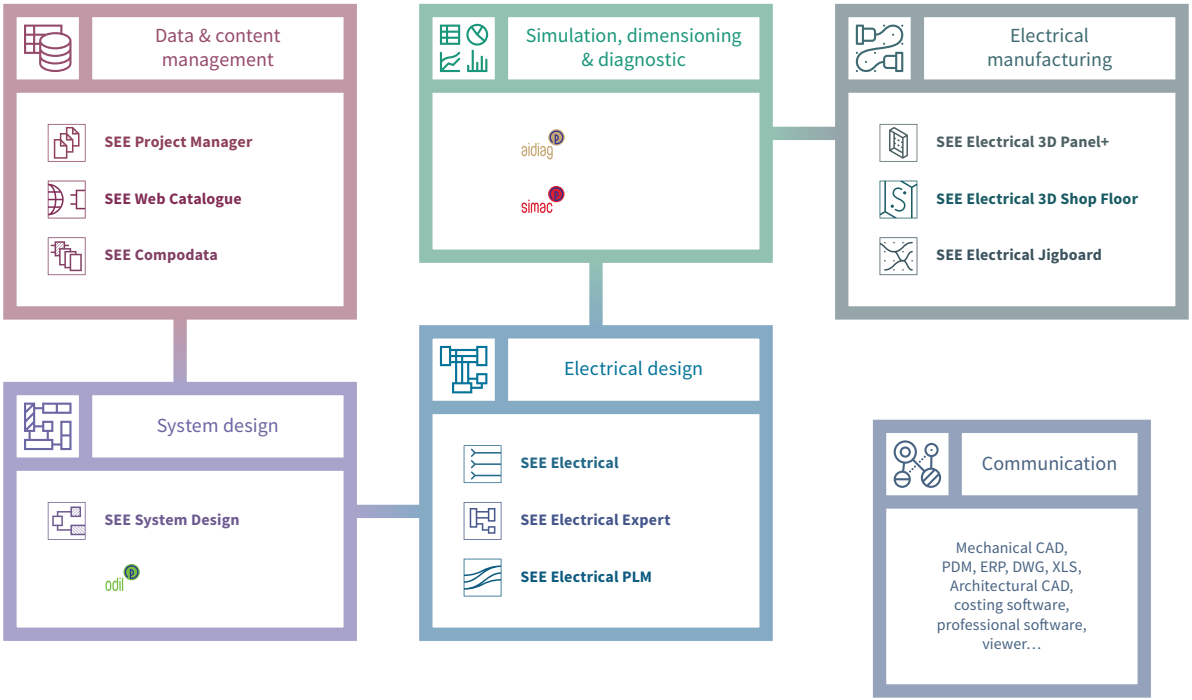

Equipment & Machinery

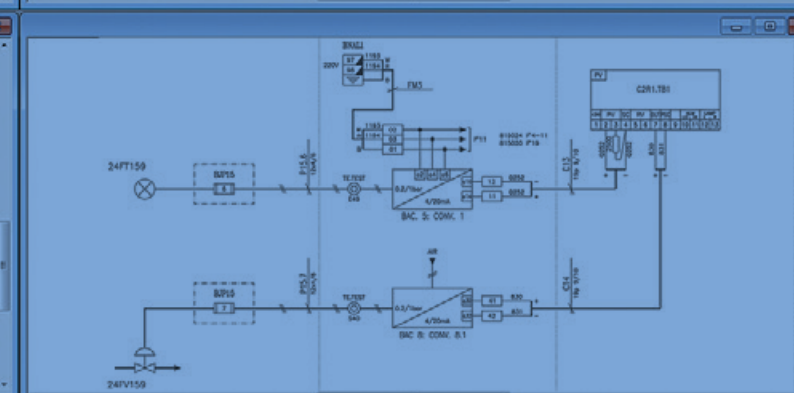

Market requirements

- More and more complex equipment
- Customization
- Reliability

IGE+XAO answers

- Solutions for all company sizes
- One of the most complete product ranges on the market
- Communication capabilities
- Customizable and scalable solutions
- Expertise from large customer base
- Strong partnership with key electrical equipment players
- Wire harnesses expertise
- Automatic schematic generation

Automation & Plant

Market requirements

- Lifetime cost optimization
- Reliability
- Predictive maintenance
- Flexibility

IGE+XAO answers

- Solutions for all company sizes
- One of the most complete offer on the market
- Communication capabilities
- Best-in-class features
- Complete environment (CEI, IEC, symbols...)
- Customizable and scalable solutions
- "Easy to use" software
- Expertise from large customer base
- Quality verification functions

Data & content management

- SEE Project Manager
- SEE Web Catalogue
- SEE Compdata

Simulation, dimensioning & diagnostic

aidiag
simac

Electrical manufacturing

- SEE Electrical 3D Panel+
- SEE Electrical 3D Shop Floor

System design

- SEE System Design

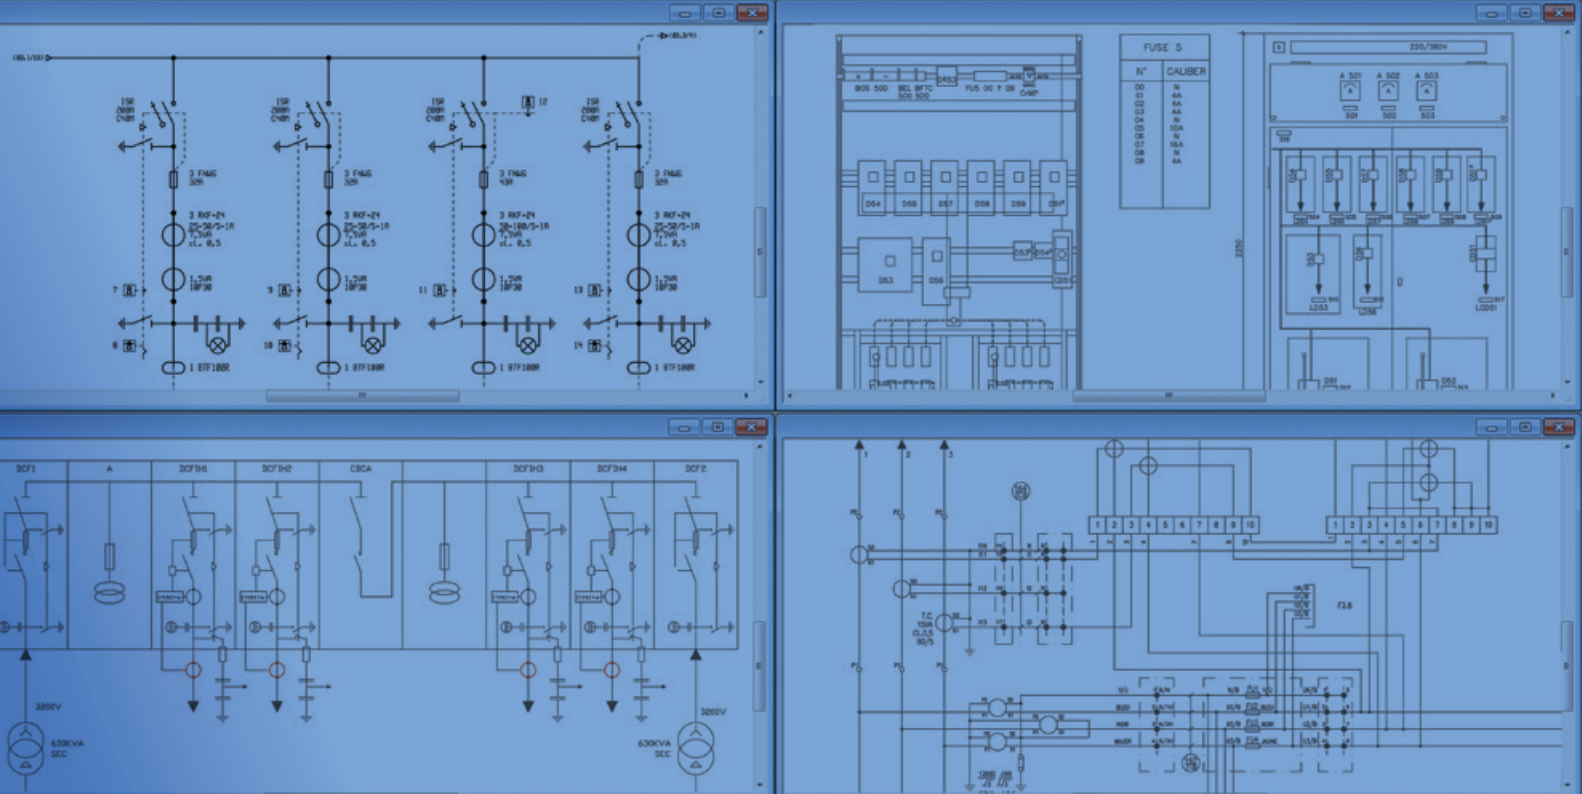

odii

Electrical design

- SEE Electrical
- SEE Electrical Expert
- SEE Electrical PLM

Communication

Mechanical CAD, PDM, ERP, DWG, XLS, Architectural CAD, costing software, professional software, viewer...

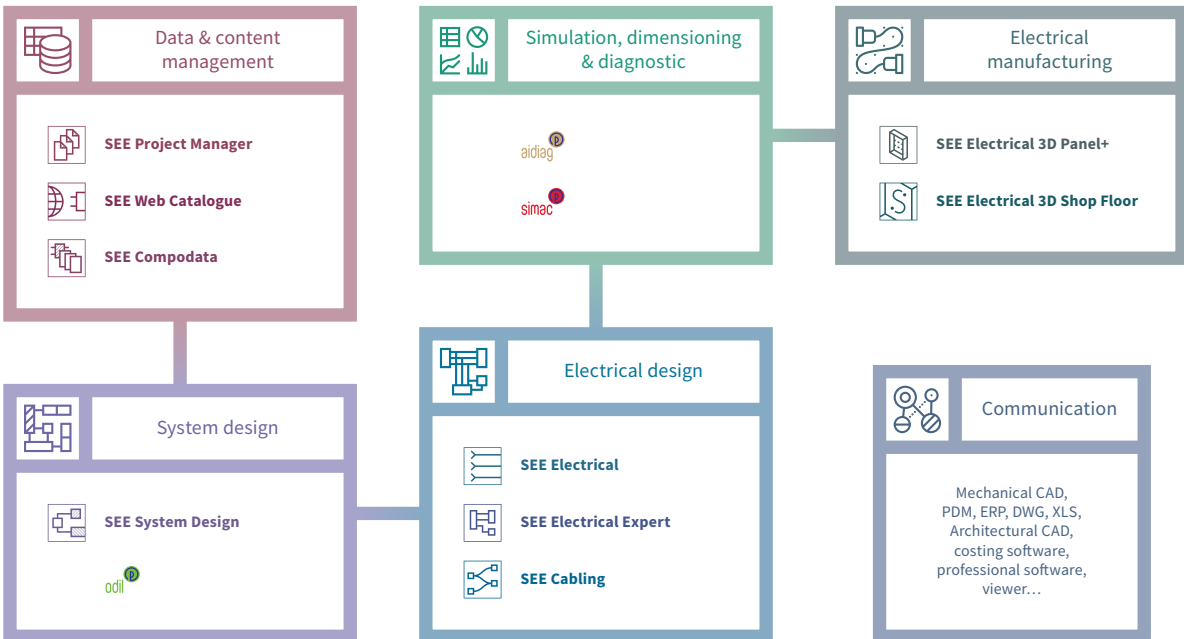

Power Generation & Energy

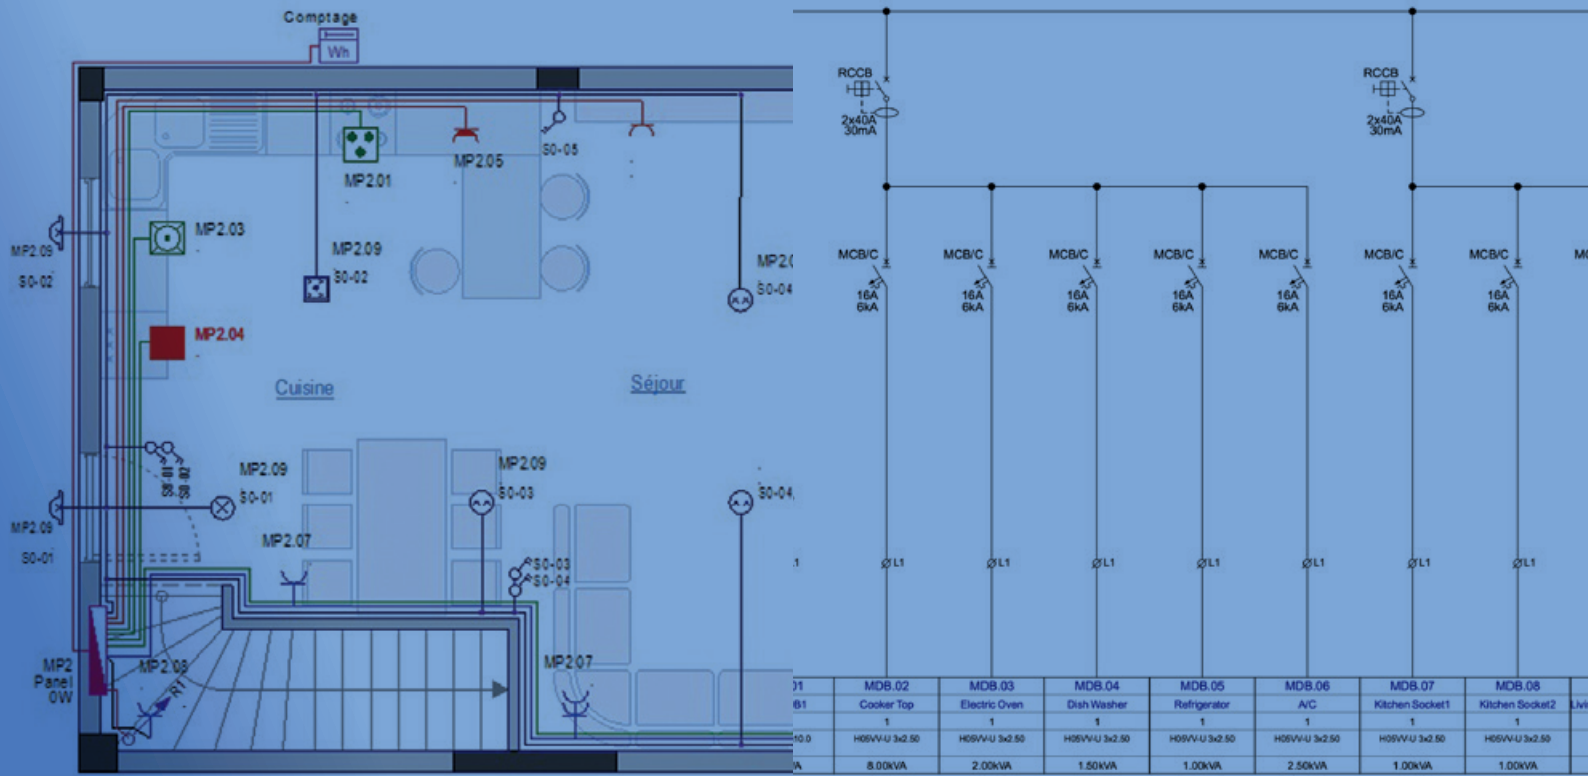

Market requirements

- Safety
- Alternative & sustainable energies
- Smart supply and demand
- Smart grid
- 24/7 operations
- Environmental regulations

IGE+XAO answers

- Complete offer from a powerful Visio-based offer to “on-the-shelf” easy to use packages
- Communication capabilities
- Collaborative solution
- Customizable and scalable solutions

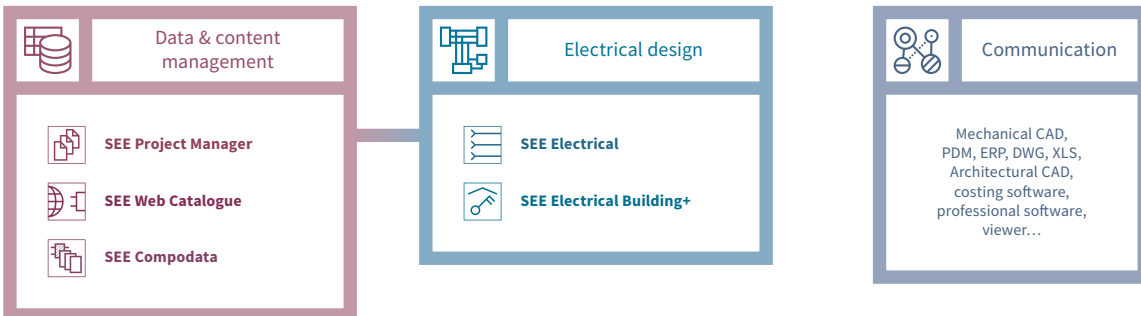

Construction

Market requirements

- Smart buildings
- Increasing number of equipment (datacom)
- Importance of standards/regulations

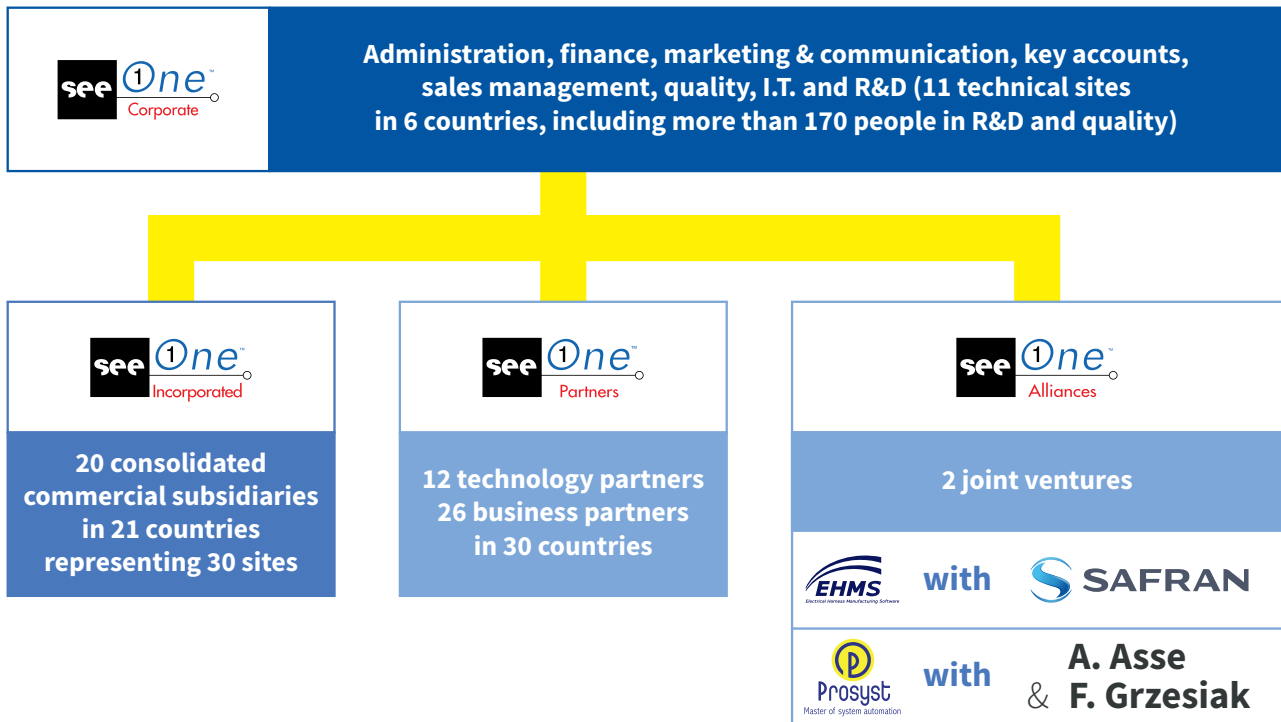

IGE+XAO answers

- Automatic schematic generation
- "All in one" product
- Easy-to-use calculation package
- Communication capabilities

An organization built around our clients

In response to the market fast-moving needs, the IGE+XAO Group has put in place an “extended enterprise” organization.

Value-added services

Training sessions adapted to clients' needs and worldwide telephone helpline.

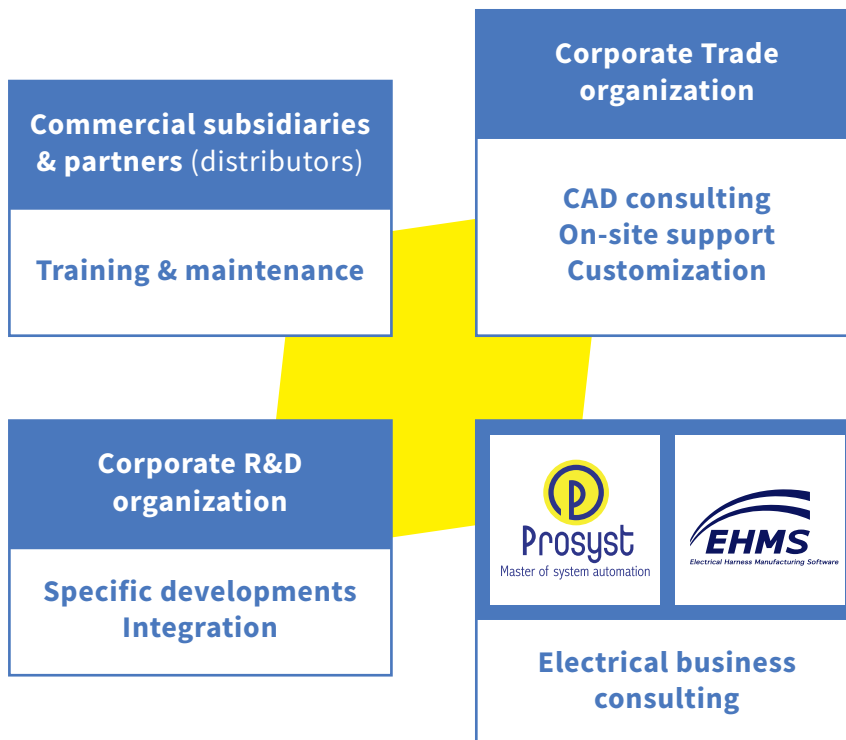

Over 70 experts are available to our clients for in more than 12 languages throughout the world.

Dedicated team to customize the software to our clients' needs.

The "Assistance+" team supports our clients in implementing and integrating IGE+XAO solutions. Our R&D team also provides specific developments as well as integration services.

Value-added consulting.

Prosynt also provides consulting services around electrical simulation and diagnostic.

We

Research & Development

Innovation

140 people focused on Electrical CAD and PLM, Design, test and quality

R&D activity 2019

R&D program

Business

- Automatic generation of schematics
- Automatic cabling
- System engineering
- Harness manufacturing
- Dimensioning
- Simulation
- Content management
- etc.

Technology

- Concurrent engineering
- Product lifecycle management (PLM)
- Product data management (PDM)
- Cloud applications
- 3D
- etc.

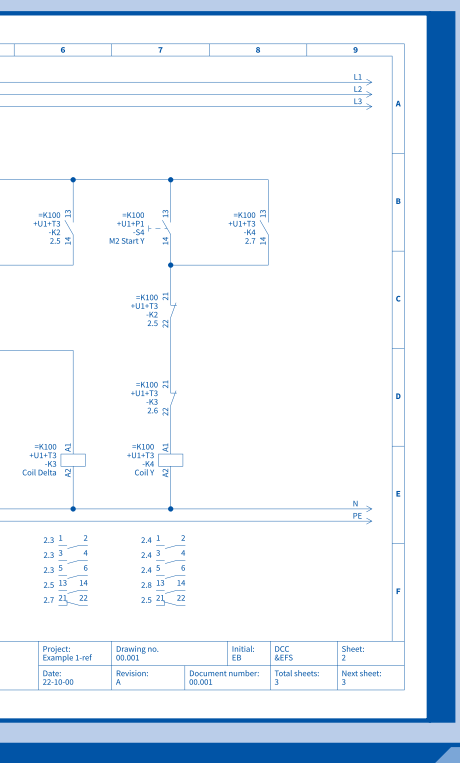

Human Resources

Strong values

Strong and shared values are key to the Group success.

- **Customer first**
- **Dare to disrupt**
- **Embrace different**
- **Learn everyday**
- **Act as owners**
