Trouvez le meilleur HMI parmi une large gamme de produits

Le Concept HMI Centric

HMI Centric

L'IHM est l'interface qui connecte l'humain à la machine en lui permettant d'accéder aux données de production et de pilotage de son process.

Les solutions HMI Centric de Pro-face combinent le meilleur des technologies numériques afin de faciliter la centralisation et la contextualisation des données IT & OT.

Comment valoriser les opérateurs au coeur de la convergence de l'IT et de L'OT grâce au concept HMI Centric ?

Le concept HMI Centric est en fait une sorte de solution IoT industrielle, dans laquelle nous tirons le meilleur de vos collaborateurs et nous exploitons au mieux la nouvelle technologie numérique.

Fléxibilité Elevée

Une connectivité native et une largeur de gamme permettant d'adresser des besoins variés

Connectivité IT/OT

Connectez-vous directement à un large éventail d'équipements et de réseaux avec différents fournisseurs.

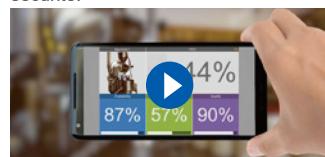

Offre évolutive et personnalisable

Une large gamme de produits avec capacité de personnalisation pour répondre aux besoins spécifiques des clients.

Système collaboratif

Services intégrés et prêt à l'emploi pour accéder aux machines à distance, en mobilité et en toute sécurité.

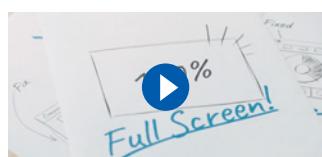

Visualisation efficace

Des technologies de conception graphique gages de performance

Mise en page optimisée

Outils de conception intuitifs permettant d'optimiser la mise en page pour un accès rapide à l'information.

Augmenter la valeur des informations

Interfaces riches et expressives avec un fonctionnement intuitif qui permet d'utiliser facilement un grand nombre de données.

Expérience tactile moderne

Ecrans haute résolution et sensibilité tactile adaptée pour un affichage fluide et performant.

Bientôt disponible

Fiabilité démontrée

Une gestion du parc installé facilitée

Solutions robustes et cybersécurisées

Basé sur les meilleures pratiques depuis que le premier IHM au monde (série GP) a été développé en 1989.

Commercialisation & Support Technique

Vente et Support Technique assurés par un réseau d'experts IHM présent dans le monde entier.

Compatibilité ascendante du matériel

Investissement permanent pour faire évoluer nos offres en intégrant de nouvelles innovations mais sans rupture technologique

Bientôt disponible

Architecture HMI Centric

L'architecture HMI Centric a pour but de vous faire économiser du temps lors du développement de votre système en vous fournissant des instructions de connexion et de configuration pour les IHMs Pro-face et des produits tiers ainsi que des exemples de projets pour réaliser vos applications.

Fléxibilité élevée - Système collaboratif

IHM avec un routeur WIFI + Smartphone

Vous pouvez facilement démarrer une maintenance à distance sécurisée via la 3G/4G en utilisant votre smartphone comme point d'accès, même dans des environnements où il n'y a pas de connexion réseau ou si le réseau du site de production n'est pas disponible.

Visualisation Efficace - Améliorer l'information

IHM avec caméra réseau IP

Les caméras sur réseau IP sont de plus en plus utilisées sur des sites industriels pour le contrôle des machines et procédés, en particulier pour des implantations de taille importante ou des sites avec peu de présence humaine. L'intégration simplifiée de ces équipements sur les IHM Pro-face, vous permettra de filmer, d'enregistrer et d'exploiter des scènes afin de piloter au mieux vos installations en accédant à ce que vous ne pouvez pas voir en exploitation normale.

Visualisation efficace - Améliorer la valeur de l'information

BOX IHM avec QR code pour des opérations IHM mobile

L'utilisation des BOX IHM et des tablettes permet de gagner de l'espace et de réduire les coûts pour une maintenance efficace sur site. Grâce à la connectivité Pro-face, vous pouvez surveiller les informations de divers équipements sur votre tablette. Il est possible de vérifier visuellement l'emplacement spécifique de l'équipement sur la tablette, ce qui vous permet de traiter les erreurs rapidement. De plus, en utilisant un code QR, vous pouvez accéder rapidement et de manière fiable à l'équipement.

Fiabilité démontrée - Solution robuste et cybersécurisée

IHM avec lecteur de carte et de badge (RFID)

Améliorer la sécurité de vos opérations en gérant les accès des utilisateurs via notre technologie de lecteur de badge et de carte RFID.

Visualisation Efficace - Améliorer la valeur de l'information

IHM pour pilotage de Robots

Plus besoin d'une interface dédiée pour votre Robot. Utilisez les IHM Pro-face pour paramétriser, piloter et exploiter votre robot avec une intégration native dans le développement de votre HMI machine.

Un seul IHM pour tout piloter !

HMI Centric Customer Story

L'IHM Pro-face au cœur des machines nouvelles générations. En particulier pour les applications mobiles Outdoor

Dans cette interview, la société Kawasaki Kiko Co., Ltd, fabricant de machines spécialisées dans la récolte de Thé et leader mondial dans ce domaine, explique comment ils ont mis en oeuvre la nouvelle offre Pro-face SP5000X Outdoor pour développer leur nouvelle génération de machines en un temps record. En effet, le projet a été réalisé en une seule année au lieu des deux ou trois années initialement prévues. L'entreprise continue aujourd'hui à faire le maximum pour augmenter les capacités de récolte tout en garantissant la meilleure qualité de Thé pour les amateurs du monde entier. Une preuve de qualité des produits Pro-face : Gain de temps, efficacité, productivité.

Chiffres Clés Clients

**Fléxibilité
Elevée**
temps de développement réduit
de 75%

Le temps de développement habituel de trois ans a été réduit de 75 % pour atteindre environ un an.

**Visualisation
efficace**
Efficacité
+200%

L'utilisation d'un écran lumineux et d'une surveillance à distance a permis d'améliorer l'exploitation de 200 %.

**Fiabilité
démontrée**
Réduction de la maintenance
de 30%

L'efficacité de la maintenance du site a augmenté de 30 % grâce au soutien de spécialistes de l'IHM.

Pourquoi choisir la gamme SP5000X

L'un des facteurs clés était la luminosité de l'écran et lorsque nous avons testé le produit SP5000X, nous avons constaté que le produit aménageait entre autre, une vraie différenciation sur cet aspect. Nous avons constaté que la luminosité et la haute résolution de l'IHM Pro-face permettaient d'afficher, en extérieur, toutes les informations nécessaires et même sur de petites tailles d'écrans. L'autre raison pour laquelle nous avons choisi le SP5000X était sa capacité à supporter la communication CAN (J1939) avec une alimentation 12V, ce qui est un avantage significatif. Nous en avions besoin pour connecter les calculateurs à l'IHM. La réactivité des équipes de vente et de support ont aussi été un point important dans la prise de décision.

Nous avions besoin de certaines fonctionnalités spécifiques et ils ont rapidement répondu en apportant d'excellentes suggestions. Lors du projet, l'équipe Pro-face a su nous accompagner de manière fiable et efficace et nous permettre de développer rapidement nos machines. La mise en place d'une interface tactile Pro-face a permis à nos ingénieurs de mieux se projeter sur l'utilisation de ces machines par nos clients et leurs façons d'opérer. Tous ces éléments nous ont convaincu d'utiliser le SP5000X pour une meilleure productivité et une meilleure efficacité.

Résultats et bénéfices

L'IHM SP5000X sert principalement d'interface pour le paramétrage. Cependant, c'est également un dispositif essentiel pour la gestion des données et la connexion au cloud. Comme toutes les informations machine peuvent être affichées sur le SP5000X, nous avons considéré l'IHM comme le cœur de la machine qui centralise l'ensemble des informations. Il n'est pas exagéré de dire que l'IHM est une brique essentielle des machines nouvelles générations. Avec la capacité de l'IHM à se connecter au cloud, nous n'avons pas eu à rajouter d'équipements IoT pour la connexion à distance.

Ceci a accéléré le développement de la machine et a constitué un avantage qui nous a permis de réaliser le projet en un an seulement alors que nous partions d'une feuille blanche. En collectant et en analysant des données spécifiques de notre machine KJM6, qui permet de labourer et fertiliser, nous avons pu voir qu'il était possible d'en améliorer le fonctionnement et d'économiser des fertilisants mais aussi l'utilisation de pesticides dans les champs.

Industrial PC NEW

PS6000 Series

BLUE Line Management Lite SCADA
Open Studio

Improve your productivity with the most reliable PC-based architecture experience.

New PS6000 from the HMI leader: Robust as a terminal, Open and High-performant as a PC, even more economical.

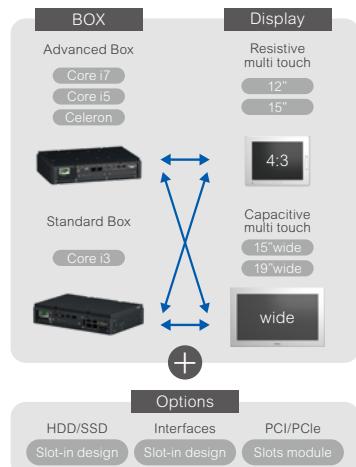

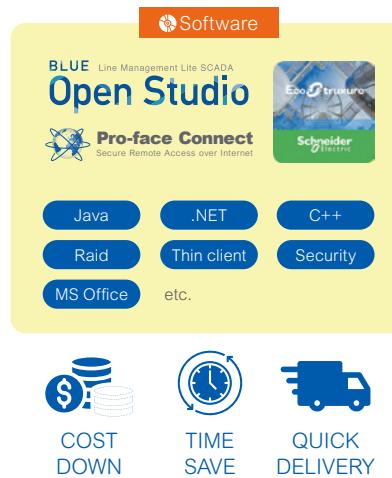

New Experience

01 New Experience for Automation Engineers

A rich modular catalog and a strong background of customization service.

To run any software, including pre-installed bundles.

Easily selected with new Product Configurator and with quick delivery.

02 A new Experience for Operators and Production Managers

High-performance with the latest CPU and Innovative display for smart manufacturing.

To run securely, on most demanding industrial environments.

Quickly change display type for operators situation with configuration.

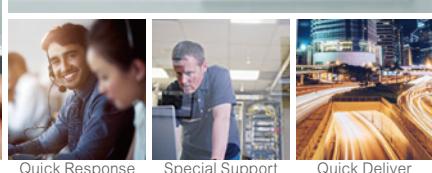

03 A new Experience for Maintenance Specialists

Smart maintenance to reduce downtime and improve productivity.

Long Term Peace of Mind thanks to long availability, global support and training.

SP5000 Series

GP-Pro EX

Flagship model achieving high performance and robust network security

The SP5000 series is an HMI that provides information quickly and efficiently, and promotes "smartification" of your factories.

Flagship

01 Manage more information in various forms

Fully compatible for direct use with Windows applications, the SP5000 can handle materials, such as manuals and error codes, without conversion.

No need to bring PC for debugging and JOB reprogramming.

Able to use ladder programming tools...

02 Simple activation by inserting cards

Display data is scalable to fit multiple sizes of monitors, which can be applied to new equipment for mass production. There is no need for on-site data transfer because SP5000 models are activated when the SD card is inserted.

This is a time-efficient way to carry out on-site troubleshooting.

03 Network segmentation

All displays of SP5000 series have two Ethernet I/F ports as standard. The IP address is changed on the SP5000 at delivery.

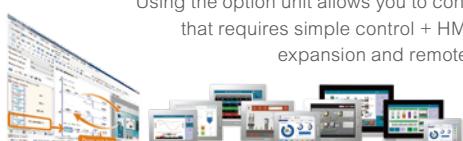

Only the IP LAN2 address within the office network is changed.

And more...

Cost Reduction and Equipment Improvement with I/O expansion

Using the option unit allows you to connect equipment that requires simple control + HMI, additional I/O expansion and remote I/O expansion.

Outdoor HMI

SP5000X Series

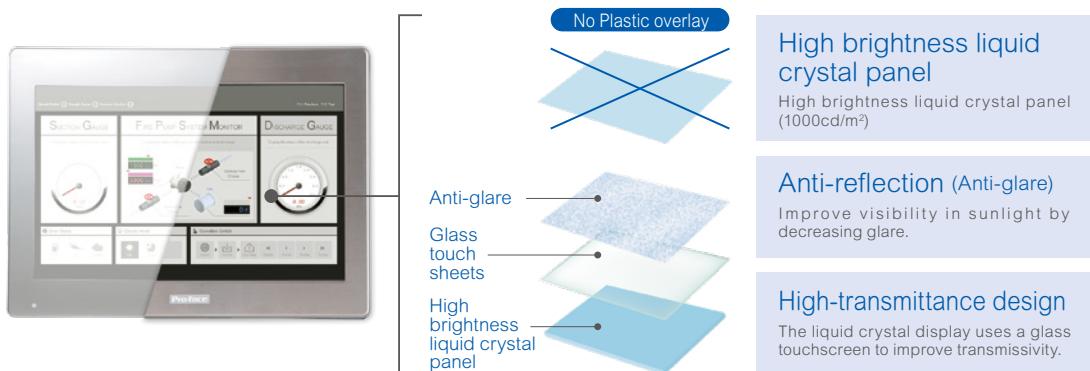

An outdoor HMI that is visible under sunlight, and resists extreme environment

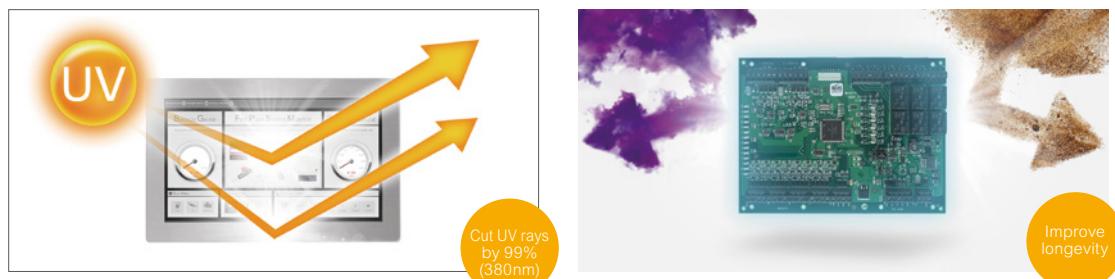

We have created a sunlight readable screen that is resistant to direct sunlight and extreme temperatures. With an enhanced information display unit and improved operability, this product is suitable for multiple applications under harsh environmental conditions including use in special purpose vehicles such as firetrucks and construction equipment; parking lots and gas stations; and the oil and gas industry.

Extreme

01 Sunlight Readable

02 Robustness

UV Protection

Improve UV protection and prevent deterioration by replacing plastic components that are exposed to sunlight with metal or glass.

Full Coating

Improve the longevity of the product even when used in outdoor environments with dust and extreme temperatures by adding coating on the substrate, LCD, and power source components.

03 Environmental Resistance

Sufficient against Vibration/Shock

We do apply IEC60068-2-6 or IEC60068-2-27 instead of IEC61131-2 test which is typically used for factory automation devices. Because they are more suitable for earth moving machines, or generators or compressors which use engines to operate machines.

Operating temperature: -30°C to 70°C

Can be used in harsher environments without the need for anti-frost heaters or fans and cooling systems.

Dust and waterproof

Compatible with IP66F, IP67F, Type 4X (indoor and outdoor use) allowing for use in harsh outdoor conditions.

* Display Module : 7" w and 12" w: 2G / 40G, 15" w: 1G / 15G
Box Module : follow the connected Display Module.

* Display Module : 7" w: -30 to 65°C, 12" w: -30 to 70°C, 15" w: -20 to 60°C
Box Module : follow the connected Display Module.

04 Maintainability

Modular structure that is easy to maintain

It is possible to replace the exposed display without changing the whole unit. The box is designed with the application pre-installed and can be used immediately upon changing components. Changes can be made quickly and easily without the need of a PC, optimizing time and resources.

05 IoT Solution

Data collection and remote maintenance

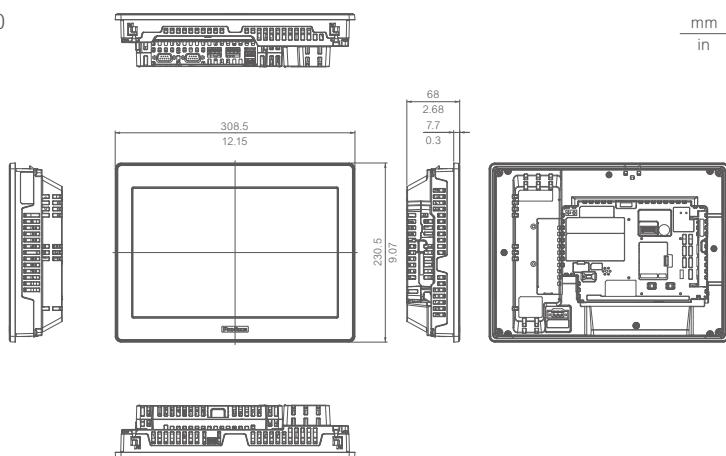

Collect data remotely from a PC such as error history and operation status, outcome, and history. It is also possible to access the HMI, verify the operation status, and conduct maintenance remotely via PC or tablet.

ST6000 Series

BLUE **NEW** **GP-Pro EX**

Achieve a high level of visualization with the new basic HMI

The ST6000 series brings a new level of visualization to the Basic HMI market which no other basic product has accomplished.

New Visualization

01 Refined

An innovative HMI with a sophisticated design that transforms simple machines.

16 Million Colors

Achieve the previously unimaginable and bring displays to life with 16 million colors.

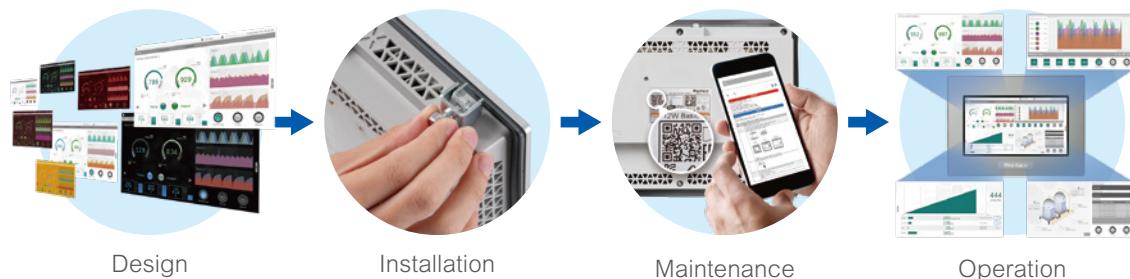

Better Graphics and Font

Display beautiful fonts with anti-aliasing. Customize gradation and transparency to meet your needs.

02 Simple & Easy

The simple design and interface help increase productivity and efficiency.

NEW

Easy Migration

Use the same application(GP-Pro EX) and leverage existing assets.

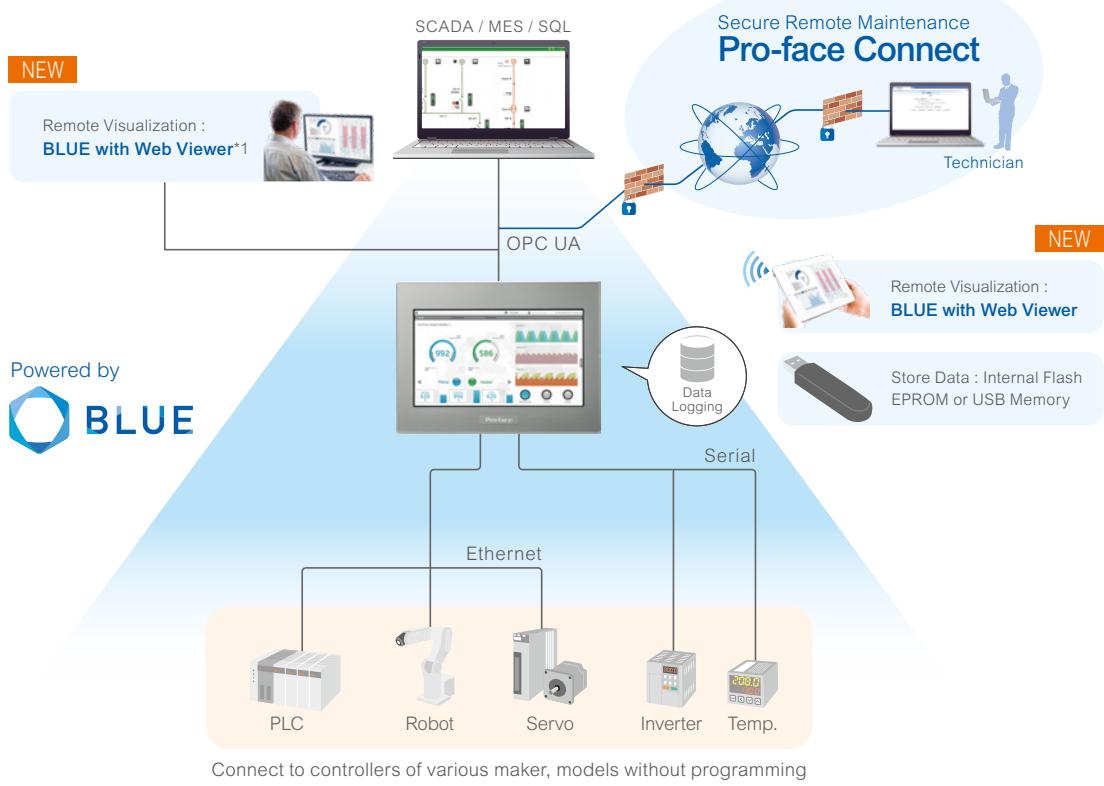

GP-Pro EX

Same application

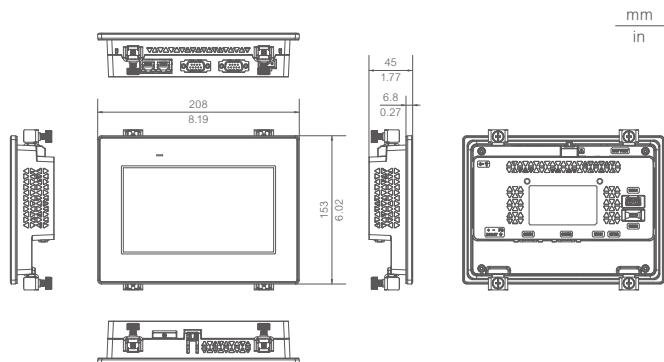

03 Connected & Secured

Seamless and secured connectivity with various devices to enhance their flexibility and increase value.

Documentation
techniqueBasic Modular HMI NEW

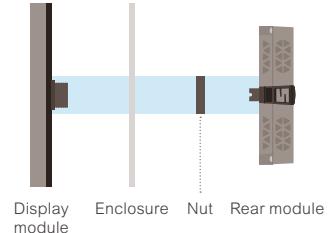

STM6000 Series BLUE

The STM6000 series in the complement of the ST6000 range brings a new level of visualization to the Basic HMI market which no other basic product has accomplished. Also, the product can be installed easily as no tools are necessary and very fast with the unique push-button mounting system through a Ø22 mm circular hole.

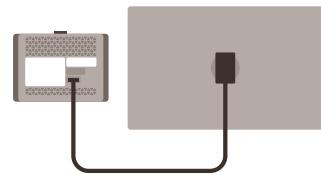

01 Easy & Fast Installation

The product can be installed easily as no tools are necessary and very fast with the unique push-button mounting system through a Ø22 mm circular hole.

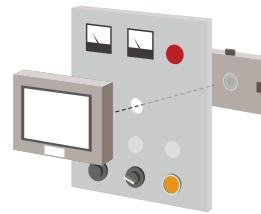

02 Flexible Installation

Thanks to modularity design, for specific applications (space, temperature, or vibration constraints) product can be separated with cable accessory 3m, 5m, 10m to install the Display module on the panel door and the rear module on DIN rail with dock station adapter.

03 Easy Maintenance

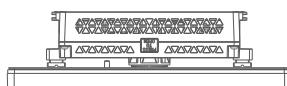

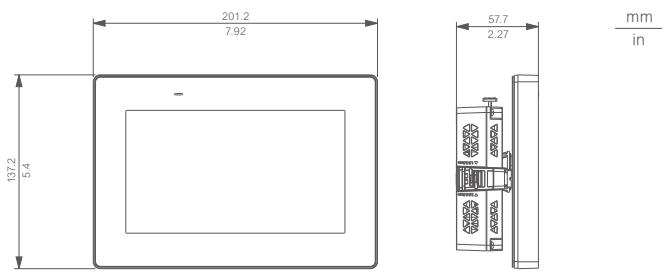

Spare part front & rear modules are available to replace the faulty part.

Basic Web HMI

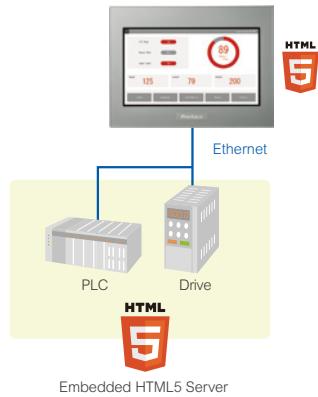

STW6000 Series

Many industrial automation devices support HTML5, which can be displayed on PCs, tablets, and smartphones. As a Web HMI, STW6000 can easily display HTML5 data from multiple devices. We are the HMI specialist, and the superior quality display, maintainability and robustness of our Web HMI meets the needs of simple machine applications for factory automation.

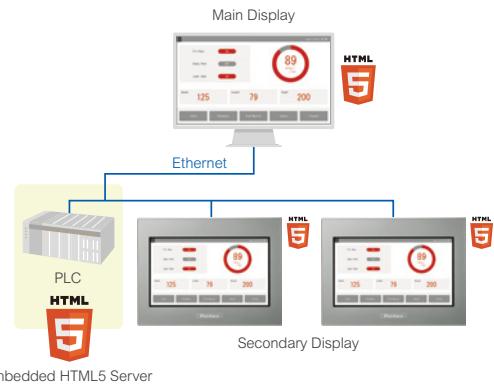

01 Main Display

Main display for simple machine is alternative to basic terminal.

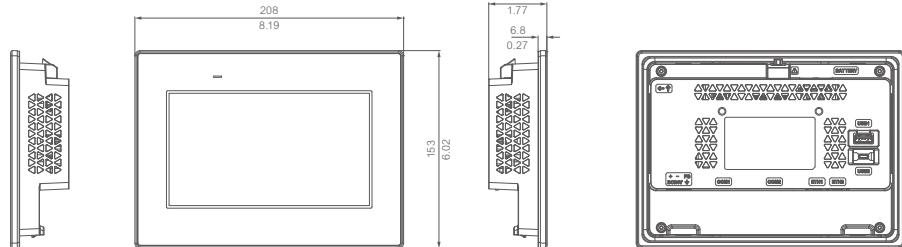

02 Secondary Display

Secondary cost effective display can also visualize small information for maintenance-diagnostic directly from PLC Servers or from the main display if it embeds its own server.

Hardware

Standard HMI

GP4000 Series

GP-Pro EX

Varied and flexible lineup
satisfying customers needs

Combines abundant functions with a broad line-up of
versatile models to meet the specific needs of every customer.

01 Widest line-up in the Pro-face brand

From classic to unique, we offer a wide range of choices to meet any application.

02 Compatible with our legacy models

Data in GP-PRO/PBII for Windows or
later is convertible using project
converter. Smooth transition to
the latest models.

USB expansion options unique to Pro-face

Reduce excess inventory of indicator lights

EZ Tower Light Model : PFXZCETWHA1 (tube mounting with fixing plate)
Model : PFXZCETWW1 (base mounting)

With this single model, multiple colors and sounds can be set.
Capable of indicating the state of equipment.

- LED lamps adaptable to various types of setting
- Configuration from HMI
- 4 colors (red, green, blue, and yellow)
and 3 modes (off, on, and blink)
- Number of lamps: 3
- Buzzer patterns: 4

Work-saving for inputting repeated values

EZ Numpad Model : PFXZCCEUKB1

Reduces screens needed for value input

- Alphanumeric and customizable function keys
(Set by HMI design software)
- Protection: IP65
- Mount: 22φ circular mounting hole

Combining switch and lamp

EZ Illumination Switch Model : PFXZCCEUSG1

Improve visibility with 6-color illumination.
Reduce man-hours for control panel installation and wiring

- LED light switches accept a wide range of settings
- Configuration by HMI design software
- 6 colors (red, green, blue, yellow, white, and orange)
and 3 modes (off, on, and blink)
- Protection structure: IP65 (front face where panel is embedded)
- Mount: 22φ circular mounting hole

Adding second LAN port with independent IP address

EZ LAN Adapter Model : PFXZCGEUE1

The GP4000 series also allows you to securely set up a network.

- Same functions as built-in LAN port
- 10BASE-T / 100BASE-TX
- Limited to GP4000 standard models

Also can be used with Pro-face products other than GP4000 series.

BLUE Line Management Lite SCADA Open Studio

VERSION
UP

Flexible software for your need

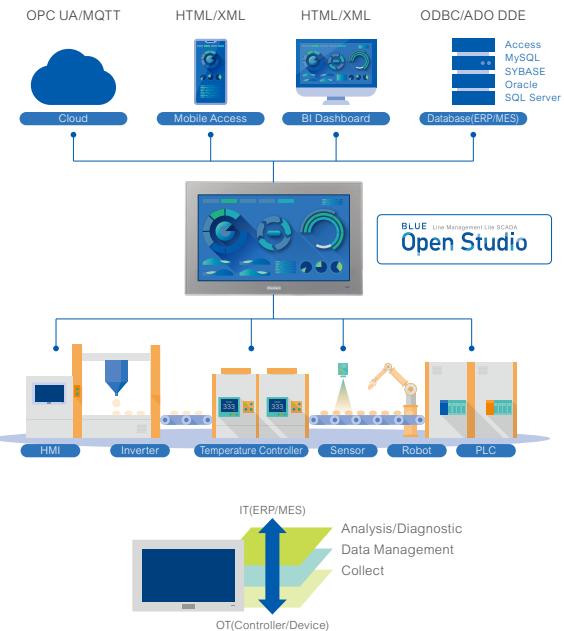

Pro-face BLUE Open Studio is a development and runtime software that incorporates all of the tools users need to create SCADA HMI applications, dashboards and OEE interfaces.

Basic Features

Scripting	Animation	Recipes	Email (SMTP)
Security	Database	Multi-touch	FTP
Symbols	Events	Reports	Historical Performance
Tags Database	Graphics and Design Tools	Scalable	PDF Export
Troubleshooting	Trends	Scheduler	SSL Support for Emails
Gestures	Multi-Language	OPC	DDE Client
Alarms	ActiveX and .NET	Intellectual Property Protection	Custom Widgets

Connectivity

250+ available communication drivers for PLCs and many other devices.
Native OPC interfaces such as OPC UA/DA
Active X and .Net controls
Support upper connectivity to DB through MQTT.

Database

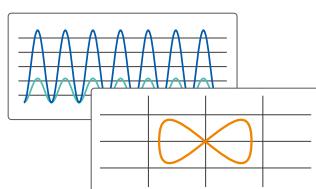

Connect to any SQL database (Microsoft SQL, MySQL, Sybase, Oracle), or Microsoft Access or Excel, and ERP/MES systems (including SAP), even from Windows Embedded Compact Edition. BLUE Open Studio is flexible, offering a built in interface that doesn't require knowledge of SQL for trends, alarms/events, grid and other objects).

OPC

BLUE Open Studio provides native OPC interfaces, such as OPC DA (Server/Client), OPC HDA(Server), UA (Server/Clien) and OPC .NET 3.0 (Client). BLUE Open Studio also supports OPC XML.

Trends

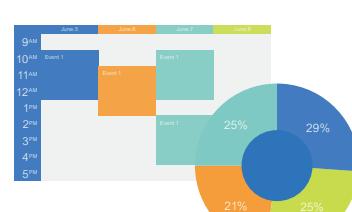

Real-time and Historical trends, and SPC functionality are supported. Log data in binary format, or to any local or remote SQL database. Color or fill trends with graphic elements to enhance clarity of data. Date/ Time based or numeric (X/Y plot) trends give you the flexibility to display information that best suits your application.

Custom Widget

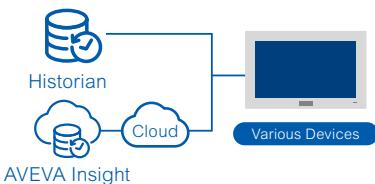

Custom Widgets provides the ability to integrate third-party web-based controls into the HMI/SCADA project screens.

Develop and share a library of controls that can be easily integrated into an application and accessible through multiple platforms.

Historian

BLUE Open Studio includes support for saving historical data from some task worksheets to a Historian database or AVEVA Insight.

Import Wizard

PanelMate (Eaton and Cutler Hammer)
FactoryTalk View ME/SE (Rockwell)
PanelBuilder32SESSE (Rockwell)

Automatically
converting

BLUE Line Management Lite SCADA
Open Studio

Remote Access

Access your BLUE Open Studio Screen from any device with a browser that supports HTML5, such as iPads, iPhones, Android devices, Windows devices, and others.

License Lineup

To version-up from Version 8.0 / 8.1 to 2020, version-up licenses are required. In addition, upgrade licenses are available to upgrade (ex, from Line management plus to Supervision)

BLUE Open Studio USB Hard key	-	-	PFXBOSUSB	USB

*1 Version 8.1 only.

PS6000 + BLUE Open Studio

Best in class pre-installed bundle to improve your business with easy select and quick delivery

1

Configured bundle,
Hardware, Software
and OS

Single configured order, for fast delivery of PS6000 with latest pre-installed* software version, and activation license, rich options
Dedicated support team for a single contact window to resolve any issues

2

Save time &
resources
on validation and
commissioning

Extensive testing and validation process from the HMI leader, for easy integration, hardware, software and operating systems to complete commissioning faster
To save time, money and resources making application up and running

3

Sustainable
supply & compatibility

A single supplier for software and hardware requirements
Stress-free migration to new releases, answering long-term industry requirements

QUICK DELIVERY

Save Time
and Stress

Save Money

Versatile Software

Revolutionary new software,
BLUE offers an alternative experience in HMI project design.
Anyone can easily create and change dynamic screens.

Refined

High quality graphics

Clearer fonts and screen parts make an obvious difference. The clarity is not affected by zoom level

Stylish design

Customize gradation and transparency to meet your needs. Stylish expression including transparent effects.

Simple & Easy

One source, multiple ways to present

Support HMI project designer to adapt/customize projects and create easily situational awareness projects delivering more intuitive projects to the operators.

View all needed information at once

Simply display all necessary screens in one place. Multi-screen information gives rise to improvement in operation efficiency.

Responsive Behavior (Dock panel)

Several pages in one screen, and independent navigation in each section. Adapt the size of information to meet your needs with one click on the dynamic display.

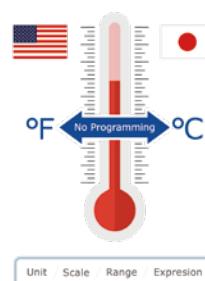

Highly flexible graph features

Using data analyzing features, such as graph comparison, can produce more expressive insight than ever before

Change the value of a variable without programming

Use a converter to change the value of a variable from the defined unit, range, scale, and expression without programming.

Connected & Secured

Pro-face connectivity

User-friendly protocols allowing you to connect your devices with ease via multiple interfaces and connect OT to IT with OPC-UA server.

BLUE

Web
Viewer

Remote Access NEW

Remote Visualization on PC or Tablet / Smartphone with new Web View features of BLUE.
See status of equipment or devices in the right place at the right time.

Simple steps to start to Remote Access

Enable web viewer function Activate web viewer license Access by generic web browser Easier re-access to your connections

Secure remote access solution

"Pro-face Connect" is a ready-to-use solution for Remote Access Over Internet on ST6000 Series without programming or configuring each device. Start using the cloud based "Pro-face Connect"™ Smart Industry solution on your existing network without involving your IT department. No network or firewall configurations are required and still the highest level of security and encryption is in place from end to end, from any PC, tablet and smartphone to your machinery.

Enhanced cybersecurity against basic intentional attacks

Need admin rights to download project to HMI target
Auto user log out after predefined idle time
Doing security checking during booting
Secure Ethernet download supported by IPSec and password protected project file

Product Name	Model	Description		Supported models
BLUE Professional	PFXBLPCZLSPAZZ	Single license	Email	ST6000 Series, STM6000 Series, GP4100 Series Color model, SP5000 Series, PS5000 Series
	PFXBLPCZLSPMZZ		Paper	
	PFXBLPCZLGPA31	Group License	Virtual delivery	
	PFXBLPCZLGP31		Printed delivery	
	PFXBLPCZLTPA31	Team License	Virtual delivery	
	PFXBLPCZLTP31		Printed delivery	
BLUE Basic*1	PFXBLECZLSRAZZ	Single license	Email	ST6000 Series, STM6000 Series, GP4100 Series Color model
	PFXBLECZLSPMZZ		Paper	
BLUE Runtime	PFXBLRCZLSPA31	Single license	Virtual delivery	PS5000 Series and PC / AT
	PFXBLRCZLSPM31		Printed delivery	
BLUE Web Viewer Runtime	PFXWRT001	Single license	License Keycode	ST6000 Series, STM6000 Series, SP5000 Series, PS5000 Series
	PFXWRT010	10 Licenses		
	PFXWRT100	100 Licenses		
BLUE USB Media Installer	PFXBTUSB32	USB Media with an installer		

*1 Basic License doesn't support for WEB API and OPC-UA. OPC-UA Server is not supported on GP4100 Series Color model

HMI Design Studio

Start the best experience with Pro-face HMI

HMI Design Studio is a creative and easy-to-use website that helps you and your team create HMI design for engineering

Installer

Download Pro-face HMI Versatile software BLUE (Full Installer / Trial Mode).

Design Studio

Download over 300 kinds of ready-made template screens and parts or design it by yourself.

Online Tutorial

Learn skills to achieve your personal and professional goals. Join today to get access to thousands of courses.

Blue Support

Contact our support or learn more about support topics that will help you.

Documentation
technique

Screen editor software

Standard screen editor software

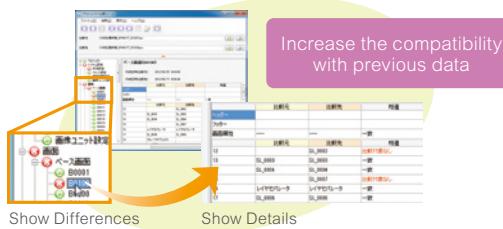

Enables HMI screen and logic programming.

Screen customization can be performed with ease due to many functions that promote compatibility with legacy applications and reduce development time.

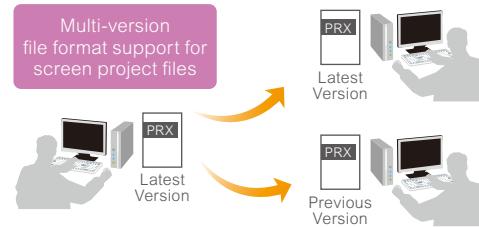

Connect directly to a wide range of devices

Largest number of drivers in the industry and many sample parts that enable connection with various manufacturers' equipment.

Leverage existing assets

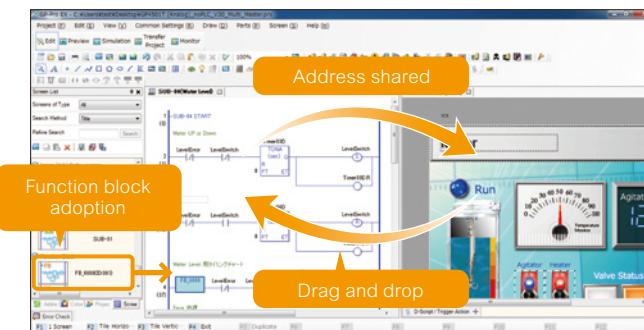

Able to display the difference between two similar files in detail.

Screen project files edited in the latest version can also be saved in the previous version.

Screen and logic can be edited with one software

Controller addresses can be used directly in the editor via drag and drop, thus reducing the development time.

Runtime engine

Seamless communication with control equipment

No need to develop a driver to communicate with control equipment such as a PLC or temperature controller.

Cooperation with user database using dedicated API

Settings of WinGP are editable and device address read/write of the connected device can be done by the user application.

Model	Description	
PFXEXEDV**	HMI screen editor & logic programming software (DVD)	
PFXEXEDLS**	1 license	GP-Pro EX editor license (license key code)
PFXEXGRPLS**10	10 licenses	GP-Pro EX Editor Group License (license key code)
PFXEXGRPLS**25	25 licenses	
PFXEXGRPLS**50	50 licenses	
EX-WINGP-IPC	1 license	License for using WinGP on WinGP-compatible IPC (license key code)
EX-WINGP-PCAT	1 license	License for using WinGP on PC / AT-compatible PC (license key code)

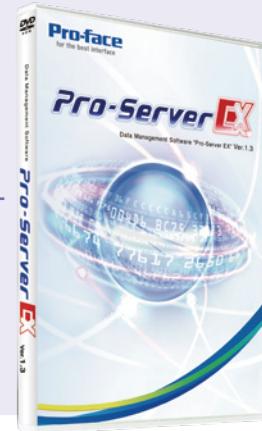

** is changed with the version of software.

Data management software

Pro-Server EX

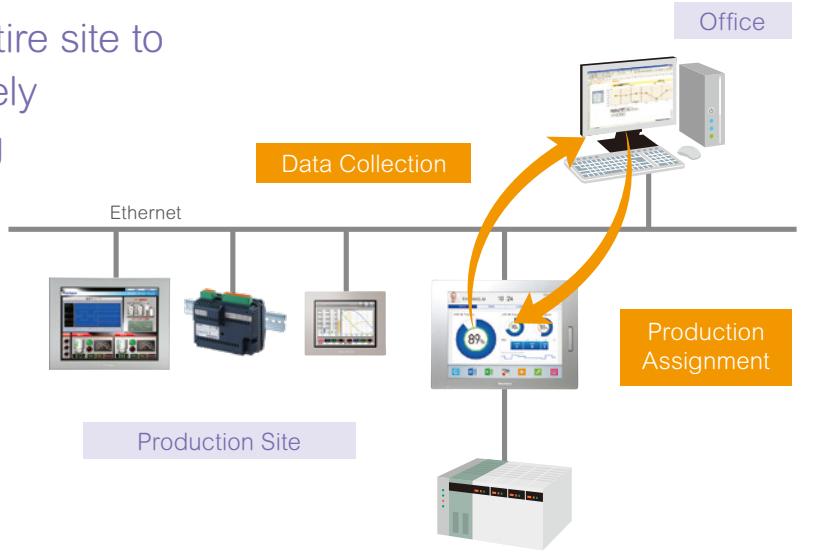

A simple way to start networking to enhance the communication between the office and the manufacturing site.

Real-time visualization and analysis of data from production sites. Remote machine monitoring and transfer of work instructions to increase efficiency between the production site and the office.

Networking of the entire site to collect data collectively without programming

Collecting accurate information, and analyzing and utilizing all your data will lead to improvement in working processes!

Remote Access

Pro-face Remote HMI VERSION UP

Software that enables tablets and smartphones to display and operate the exact same screen as the on-site HMI. Secure design with full-feature functions taking into consideration tablet operations.

Supported OS

Android OS, iOS (iPhone, iPad, iPod touch)

Download (purchase) from App Store / Google Play

Pro-face Remote HMI Server VERSION UP

Installing Pro-face Remote HMI Server on a Windows device allows users to monitor and operate Excel and PDF files from Pro-face Remote HMI, in addition to the terminal operator screens.

Model	Description
PFXEXRHLS	Software to operate and monitor Windows applications such as Excel or PDF besides Pro-face HMI screen

Pro-face Remote HMI Client for Win VERSION UP

More powerful Pro-face Remote HMI for Windows OS launched.

While inheriting the functions of Pro-face Remote HMI, newly improved functions were added.

Model	Description
PFXEXRHCLS	1 License
PFXEXRHCLS10	10 Licenses
PFXEXRHCLS30	30 Licenses

Secure Remote Access over Internet

Pro-face Connect

Connect and Go

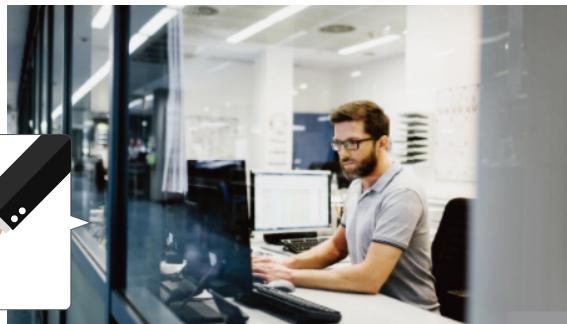

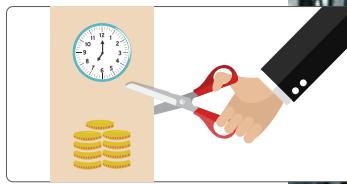

Pro-face Connect is a ready-to-use embedded HMI service to access machines remotely and securely.

Small initial cost

No need to locate VPN router in every branch.

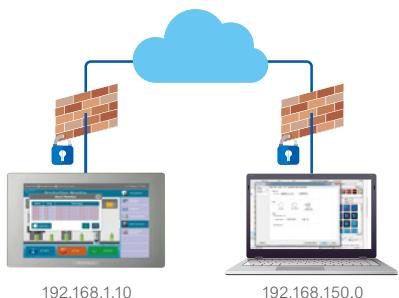

Able to operate the system with only the license of running cost.

Able to use IP address with no change

Able to connect to the existing local IP address with no change.

No man-hours to change an IP address.

Connect securely

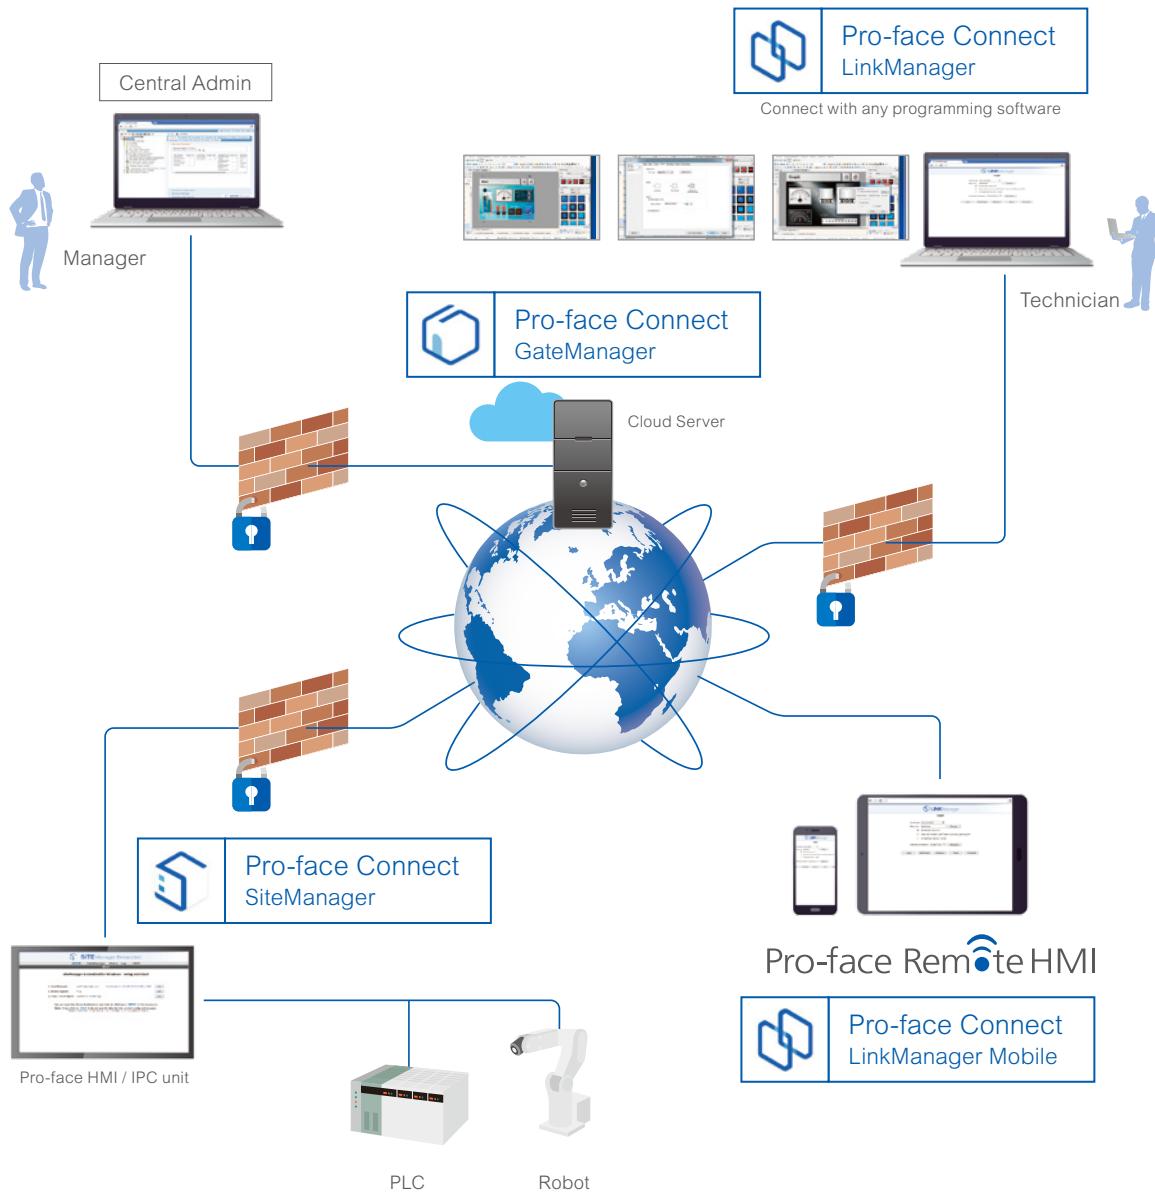

Conforms with industry level standards for security. Able to build a secure network.

- User access based on x.509 Cert.
- AES data encryption
- ISA99 and IEC 62443

Pro-face Connect

"Pro-face Connect" is a ready-to-use solution for Remote Access Over Internet on IPC, PS5000 Series and Smart Portal SP5000 Series without programming or configuring each device. Start using the cloud based "Pro-face Connect" Smart Industry solution on your existing network without involving your IT department. No network or firewall configurations are required and still the highest level of security and encryption is in place from end to end, from any PC, tablet and smartphone to your machinery.

License Lineup

Product Name		Model No.	Description
Pro-face Connect 30 days Free Trial		PFXCONFREE30	Trial package running 30 days and including: 1 x Pro-face Connect GateManager License 1 x Pro-face Connect SiteManager Embedded Extended License, 5 device agents 1 x Pro-face Connect LinkManager License (floating license) 1 x Pro-face Connect LinkManagerMobile License
Basic Packs	Pro-face Connect Essential Pack	PFXCONPACKESS	1 x GateManager Customer Domain / 1 x LinkManager Floating License 1 x LinkManager Mobile License / 1 x SiteManager Extended 5 (Annual)
	Pro-face Connect Enterprise Pack	PFXCONPACKENT	1 x GateManager Customer Domain / 1 x LinkManager Floating License 1 x LinkManager Mobile License / 20 x SiteManager Extended 5 / 1 x GateManager Premium Access
Pro-face Connect LinkManager License		PFXCONLINK1	1 x Pro-face Connect LinkManager License
Pro-face Connect LinkManager Mobile License		PFXCONLINKM1	1 x Pro-face Connect LinkManager Mobile License
Pro-face Connect SiteManager Basic License		PFXCONSMBSC1	5 x Pro-face Connect SiteManager Embedded BASIC license
Pro-face Connect SiteManager Extended 5 Licenses		PFXCONEXTD5	1 x Pro-face Connect SiteManager Embedded EXTENDED license, 5 device agents
Pro-face Connect SiteManager Extended 10 Licenses		PFXCONEXTD10	1 x Pro-face Connect SiteManager Embedded EXTENDED license, 10 device agents
Pro-face Connect GateManager Premium Access *1		PFXCONGMPREM	1 x GateManager Premium Access, Add-on option for Pro-face Connect Essential Pack license (PFXCONPACKESS)
User Statistics *1		PFXCONSTAT	Add-on option for Pro-face Connect Essential Pack license (PFXCONPACKESS) or Pro-face Connect / Enterprise Pack (PFXCONPACKENT)

*1 Not available in all areas, please contact your local office.

Customization and Services

Pro-face is experienced in providing HMI customization services based on specific needs.

Basic menu

 Strengthen your brand	 Better design suits your machine	 Reduce engineering set-up time
Popular Option Replaced the Pro-face logo with a custom design Standard delivery date 10~ working days Reference price Base Price + 10 EUR~, depends on the design of customer's logo.	Popular Option Customized overlay Standard delivery date 40~ working days Reference price Base Price + 20 EUR~, depends on the screen size and number of colors required by customer on the overlay.	Popular Option Software kitting and product bundle Standard delivery date 10~ working days Reference price Base Price + 30 EUR~, in case of 3rd party software or OS kitting, additional support may be required from customer.

Specific needs

We offer products outside the basic lineup to meet individual needs

Pro-face is experienced in providing HMI customization services based on specific needs

Embedded Camera	Operation log with video and image. Target Semiconductor / Electronics	 →  SP5000 Series PFXSP5600TPD + SP5000 Series PFXSP5B41 Snapshot or video recording by switches on the screen
Interface changes	Change the interface to meet customers' needs. Target Train / Special Vehicle	 →  SP5000X Series PFXSP5690WAD + SP5000X Series PFXSP5B41 Ethernet(M12) ×1 COM(D-sub 25pin)
Rear Mount	Change the rear mount design to suit specific use or situation. Target Food & Beverage Woodworking Machine	 →  GP4100 Series PFXGP4116T2D Flat on the surface
